

Accessibility Solutions.

Essential for some, useful for all

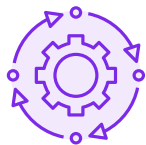

TRANSPERFECT
GAMING SOLUTIONS

From captions or colorblind modes to entirely new ways of playing, games are becoming more accessible to everyone, regardless of disability. These features make a better experience for all players and expand the playability of your game.

Solutions for Accessibility

ACCESSIBILITY TESTING

- Game / application testing
- Certified accessibility experts*
- Testers/players with disabilities

DESIGN CONSULTATION

- Ground-up accessible design
- Accessible feature development
- Consultation

ACCESSIBILITY SERVICES

- Subtitles / Captions
- Audio Description
- Color Modes

*Our accessibility experts are testers/gamers who actively use/need accessibility features, helping to provide authentic feedback to better support your game.
